| <b>Period of Contract: 02 years</b>                                      |                                                                                                                                                                                                                                                                                                                                           |

**Key Responsibilities:**

- Oversee day-to-day functioning, planning, and management of Planetarium activities, staff, and resources.
- Conceptualize, develop, and implement planetarium shows, astronomy outreach programmes, lectures, and workshops.
- Promote research and innovation in astronomy education, popularization of science, and public engagement.
- Organize astronomy popularisation programmes such as sky-watching events, lectures, student activities, and public lectures.
- Develop initiatives to engage schools, colleges, and the general public in astronomy and space sciences.
- Mobilise resources and foster partnerships to enhance the Planetarium's capacity.
- Formulate long-term vision and strategies for the growth and prominence of the Planetarium as a centre of excellence in astronomy outreach.

Prospective candidates who currently working in Planetariums or similar institutions or Retired Planetarium Professionals or those who are willing to come on deputation from other museums can also apply for the said post.
